English School Board Support Staff The FPSS-CSQ concludes second agreement in principle

Less than 48 hours after having reached an agreement at the sectoral table for French school board support staff, the Fédération du personnel de soutien scolaire (FPSS-CSQ) announced a second agreement, affecting over 600 support staff employees of the Eastern Shores and Eastern Townships school boards.

“We succeeded in winning gains for our Anglophone members that are comparable to those we negotiated with the French school boards. These sectoral negotiations also enabled us to harmonize the collective agreements for both unions affected, given that the Eastern Shores School Board support staff joined our ranks in December 2014,” explained Éric Pronovost, President of the FPSS-CSQ.

President of the FPSS-CSQ

Upcoming general assemblies

The agreement will be put to the members at general assemblies.

Mobilization continues

Although two agreements in principle have been reached, the FPSS-CSQ is maintaining mobilization, alongside its Common Front partners, to secure a positive outcome for negotiations at the intersectoral table, where it is dealing with salaries and retirement.
